

# AQUA STEEL

## STAINLESS STEEL POLISH WATER-BASED

**AQUA STEEL** is a water-based stainless steel cleaner and polish. Its emulsion formula allows it to be used on aluminum, zinc, iron, brass, copper, silver, and other metals. **AQUA STEEL** prevents resoiling and finger marking while restoring the original luster. Some buffing may be necessary on metals with grain.

### DIRECTIONS FOR USE

Spray a moderate amount of **AQUA STEEL** on a damp cloth. Apply to surface, following the "grain" of the metal. Buff out with a clean cloth, following the "grain" of the metal.
