

BUG THUG

FLYING INSECT KILLER

BUG THUG has a natural pyrethrin-based formula for effective killing of flying and crawling insects. Its natural ingredients help control a wide variety of insects including ants, cockroaches, crickets, silverfish, spiders, sowbugs, earwigs, carpet beetles, brown dog ticks, and fleas. **BUG THUG's** dual action formula provides a wide variety of uses. EPA Registered.

DIRECTIONS FOR USE

Spray **BUG THUG** in areas where pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards, door and window frames, behind and beneath sinks, stoves, refrigerators and cabinets, around garbage cans, plumbing and other utility installations, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Spray outside surfaces of window and door frames, dark corners and localized resting areas (such as under eaves) or porches, patios and garages where insects may congregate. Spray surfaces until wet. Repeat as necessary. See label for further instructions.
