

MAGNET

DUST MOP TREATMENT

MAGNET is a water-based dust mop treatment that provides magnet-like attraction to dust and dirt. It causes dust to coagulate into lint, which will not scatter. **MAGNET** will not re-attract dirt and dust or discolor floors like oil-based products. The emulsifiable formula can easily be washed out of mops and cloths.

DIRECTIONS FOR USE

Pre-treat dust mops, cloths, or high dusters one day before using to allow **MAGNET** to penetrate fibers. Spray **MAGNET** from a distance of 8 inches with a light spray over entire mop, cloth, or high duster. Reapply as needed.

TECHNICAL DATA

Color.....	White
Scent.....	Spearmint
Foaming.....	Medium
Solubility in Water.....	Complete
Density (lb/gal).....	N/A
Flash Point.....	123°F
pH.....	N/A
