

Speedy Strip

Heavy-Duty Floor Stripper

Speedy Strip is a powerful stripper designed to release and remove finish and sealers in a flash. Upon application, the solution dissolves the finish/sealing agents to form an emulsion that is easily removed from the floor surface. Speedy Strip is for the toughest of stripping jobs. Safe on all resilient tile and hard floors.

DIRECTIONS FOR USE

A single flood application of stripper will cover approximately 200 sq. ft. per gallon of solution. If the floor is re-wetted, due to soaking in or drying out, additional stripper will be necessary. Due to build-up, rewetting will certainly be required.

Dilute 32 ounces of Speedy Strip per gallon of water. Wet floor. Machine scrub. Pick up solution with a mop or wet/dry vacuum. Rinse floor twice with clean water.

TECHNICAL DATA

Color.....	Clear
Scent.....	Chemical
Foaming.....	Low
Solubility in Water.....	Complete
Density (lb/gal).....	8.6-8.75
Flash Point.....	None
pH.....	13.3

Speedy Strip

Heavy-Duty Floor Stripper

FEATURES

Strong, fast acting

Concentrated

Works the first time

Will strip both finish and sealers

CUSTOMER BENEFITS

Less waiting, saves time

Saves money

No need to strip twice

No need to have two different strippers; saves on inventory
