

Knock Out

Liquid Enzyme

A fast acting, multi-purpose enzyme for use in grease traps, drain lines and pipes, septic tanks, and as a carpet spotter. Works faster than other enzyme products leaving drains clean and safely maintained. **Knock Out Liquid Enzyme** has a pleasant floral fragrance to help eliminate obnoxious odors.

Directions for Use

Shake well before using.

GREASE TRAPS; For small grease traps (less than 20 cubic feet), pour 6 to 8 ounces of **Knock Out** daily down the main drain closet to the trap. For larger traps and systems with heavy loading, use 16 to 18 ounces of **Knock Out** per day.

DRAIN LINES & DOWN PIPES: Pour 4 to 6 ounces of **Knock Out** twice a week. For heavily used lines or problem lines, a daily dosage may be required.

SEPTIC TANKS: Add 32 ounces of **Knock Out** for initial treatment. Thereafter, add 8 ounces per week by flushing down the toilet. If the septic system is fouled, use a double dosage for first 1 - 3 months.

CARPET SPOTTER: Remove excess waste. Test for colorfastness in an inconspicuous area. Mix 1 part **Knock Out** with two parts water and clean area (use mixed solution within 2 to 4 hours). For severe spots, use undiluted. Repeat procedure, if necessary, for persistent problems.

BATHROOMS: Squeeze **Knock Out** directly into bowl or urinal, then flush. For wet mopping, mix 4 to 6 ounces of **Knock Out** to 1 gallon of water in a bucket and mop floors. **Knock Out** eliminates the source of the odor.

Technical Specifications

Color	Milky White
Scent	Pleasant
Foaming	N/A
Solubility in Water	Complete
Density (lb/gal)	8.3
Flash Point	None
pH	6.9-7.1

Packaging

6 x 1 Quart
12 x 1 Quart
4 x 1 Gallons
2 x 2.5 Gallons
5 Gallons
15 Gallons
55 Gallons
250 Gallons
