

NAC Concentrate

Disinfectant, Deodorizer, and Mildewstat Cleaner

N.A.C. Concentrate is for use where housekeeping is of prime importance. For use in hospitals, Schools, Restaurants and all other areas where disinfecting and cleaning is done.

N.A.C. Concentrate will clean and disinfect hard, non-porous surfaces such as walls, sink tops, desks, tables, counters, toilets, floors, furniture, telephones, shower stalls, bathtubs, hampers, cabinets, and bedsprings. **N.A.C.** has disinfecting action that kills the HIV-1 (AIDS virus), MRSA, Norovirus, Shingela and many other viruses. In addition, **N.A.C.** will deodorize those areas that are generally hard to keep fresh smelling such as garbage storage areas, empty garbage bins and cans, basements, and restrooms. EPA Registered. 1839-96-12661

Directions for Use

DISINFECTION: Use 1 ounce **N.A.C.** per gallon of water for a minimum contact time of 10 minutes in a single application. For disinfecting, remove filth and heavy soil deposits. Pre clean all surfaces prior to disinfection; then thoroughly wet surfaces.

N.A.C. Non- Acid Cleaner is extremely versatile and can be applied with a mop, sponge, sprayer, or cloth as well as soaking.

CLEANING & DISINFECTING TOILET BOWLS: To clean, squeeze **N.A.C. Non-Acid Restroom Cleaner** around the bowl and under the rim. Leave for 10 minutes or overnight if possible. Swab, then flush. To disinfect, first remove or expel over the inner trap the residual bowl water prior to applying the use dilution.

See label for further instructions.
